

Thank you for downloading!

Thanks for downloading the theme! This is my very first theme, and it seems to be getting popular (although many have pointed out that the nostalgia may bring a tear to your eye). Please have fun with this theme, and feel free to email criticism and ideas to cooperkevin95@gmail.com. You can submit modifications to this theme, and after review, I may add them to a future update to the theme!

What's New in v2.5?

- Windows 98 SBSettings Theme! (see below for installation)
- Backgrounder Badge that looks like shortcut icon
- New icons and tweaks to older ones
- Completely new skins for
 - x Music Player (iPod)
 - x Safari
 - x Notes
 - x Calculator
- Fixed several UI Image problems, thanks to beta testers
- New carrier logos that take up less space
- Optional 24-hour clock wallpaper
- A few more surprises...

Setup and Installation

REQUIREMENTS

- Winterboard
- Five Icon Dock
- Five iRows
- Five Column Springboard
- iBlank (and BlankNull)
- Categories
- Stacks

1. Install the theme in Library/Themes.
2. DO NOT SET IT AS YOUR THEME IN WINTERBOARD YET!
3. Turn on FiveIconDock, Five iRows, and FCSB. Make sure Categories, iBlank and BlankNull are installed and activated.
4. After installation, open Categories.
5. Use Categories to create a folder - Name it "Games".
6. Add all your game apps to the "Games" folder.
7. Close Categories.
8. Open iBlank and create 1 blank icon.
9. Drag to the dock, in this order: Stack, iPod (or Music & Videos), Photos, the blank icon you just created, and Clock.
10. Drag the desired apps to the stack.
11. Open Winterboard and set "Windows 98" as your theme.
12. To install the "Windows 98 Sbsettings" theme, place the folder in `var/mobile/Library/SBSettings/Themes\`
